by more quality content provided through our integrated multiple live streaming platforms including Hongren platform we acquired in January 2022. For the year ended December 31, 2022, the number of paying user was 702,372, decreased from 840,640 paying user for the year ended December 31, 2021. Our average ARPPU increased by 39%, from RMB1,963 for the year ended December 31, 2021 to RMB 2,725 for the for the year ended December 31, 2022.

Cost of revenues increased by 22.4%, to RMB1,670.1 million (US\$242.2 million) for the year ended December 31, 2022 from RMB1,364.9 million for the year ended December 31, 2021. The increase was primarily attributable to a 29%, or RMB341.2 million, year-over-year increase in the Company's revenue sharing fees and content costs. We have to increase sharing fee ratio in the growth and competitive landscape of China's mobile live streaming market.

Gross profit decreased by 7.0% to RMB283.2 million (US\$41.1million) for the year ended December 31, 2022 from RMB304.5 million for the year ended December 31, 2021. Gross margin for the years ended December 31, 2022 and 2021 was 14% and 18%. As we continued to increase the revenue sharing fee ratio, it decreased the gross margin in short run but will attract more high-quality broadcasters and enhance the quality of our content offerings.

Total operating expenses decreased by 3.7% to RMB133.4 million (US\$19.3million) for the year ended December 31, 2022 from RMB138.5 million for the year ended December 31, 2021.

- Sales and marketing expenses significantly decreased by 55.8%, to RMB2.1 million (US\$0.3 million) for the year ended December 31, 2022 from RMB4.8 million for the year ended December 31, 2021. This decrease was mainly due to fewer promotional activities.
- General and administrative expenses decreased by 6.5%, to RMB61.0 million (US\$8.8 million) for the year ended December 31, 2022 from RMB65.2 million for the year ended December 31, 2021. The decrease was primarily due to a decrease of RMB9.5 million in share base compensations, partially offset by more consulting and professional fees due to the expansion of the Company and amortization of intangible asset.
- Research and development expenses decreased by 3.6% to RMB67.5 million (US\$9.8 million) for the year ended December 31, 2022 from RMB70.0 million for the year ended December 31, 2021 due to a decrease of RMB13.9 million in share base compensations, partially offset by higher employee salary and welfare as a result of increased R&D headcounts.
- Provision for doubtful accounts was RMB2.7 million (US\$9.8 million) for the year ended December 31 2022 as compared to a recovery of doubtful accounts of RMB1.6 million for the year ended December 30, 2021, due to slow collection.

Change in fair value of contingent consideration decreased to RMB13.1 million (US\$1.9 million) for the year ended December 31 2022 from RMB33.6 million for the year ended December 31 2021. Change in fair value of contingent consideration is derived from the Company's reverse recapitalization with Wealthbridge Acquisition Limited on May 7, 2020, acquisition of BeeLive on August 10, 2020 and acquisition of Hongren on January 1, 2022, which involved payments of future contingent consideration upon the achievement of certain financial performance targets and specific market price levels. The Company's warrants assumed from SPAC acquisition that have complex terms, such as a clause in which the warrant agreements contain a cash settlement provision whereby the holders could settle the warrants for cash upon a fundamental transaction that is considered outside of the control of management are considered to be a derivative that are recorded as a liability at fair value. The warrant derivative liability is adjusted to its fair value at the end of each reporting period, with the change being recorded as other expense or gain.

Change in fair value of investment in marketable security decreased to RMB1.8 million (US\$0.3 million) for the year ended December 31 2022 from RMB25.8 million for the year ended December 31 2021. In January 2021, the Company, through its wholly owned subsidiary, Scienjoy Inc., purchased from Cross Wealth Investment Holding Limited, an entity related to one directors of the Company, 606,061 ordinary shares of Goldenbridge Acquisition Limited ("Goldenbridge") for an aggregated consideration of US\$2 million. Investment income amounted to RMB25.4 million (US\$3.7 million) for the year ended December 31, 2022, compared to an investment loss of RMB3.0 million for the year ended December 31, 2021. On October 9, 2021, the Company signed an investment agreement to invest up to RMB 150 million into Qingdao Sixiang Zhuohong
